## GO! EMERGE

Like the award-winning *Teen Emergent Reader Libraries* (see pages 28–35), the new *Tween Emergent Reader Libraries* will motivate struggling readers to pick up a book, start reading, and keep reading. But this new series features topics and genres particularly of interest to upper elementary and middle school students. Planned as a three-box set, with books written at emergent and beginning reader levels, this unique new collection contains the books you have been searching for: high-interest fiction and nonfiction selections in sets that include both literary genres and content-specific themes.

Because these books are designed for ages 10 to 14, the storylines presented are not as mature as the TERL collections but still remain contemporary, relevant, and enticing. The first boxed set, *Emerge*, includes 48-page books written at true emergent levels with full-color photographs on every page to support comprehension and engage struggling readers. Two additional sets, *Engage* and *Excel*, will feature slightly higher reading levels and word counts to allow students to progress in reading step by step.

Each set includes a Teacher's Guide, which provides detailed instructional support for every book and genre. Lesson plans, guided reading questions, comprehension-based activities, and book quizzes are all included.

The books, combined with the instructional support, provide the perfect solution for upper elementary and middle school teachers who want to differentiate instruction to meet the needs of all learners. In addition, high school teachers who are looking for gentler topics than those featured in TERL will find these books a perfect choice for their struggling readers.

# Award-Winning Books

A New Level of Sight Words-Based Texts for Teens

## What Is TERL All About?

The *Teen Emergent Reader Libraries*® have been developed to solve the issue of motivating the most struggling teen readers to pick up a book and start reading. The first three libraries are written at the emergent and beginning reader levels. SOAR, the *Teen Early Fluency Library*™, is the newest addition to TERL. It introduces readers to longer fiction and bridges the gap between emergent reading and early fluency. The books offer mature, teen-centric storylines that entice teens to read. Formatted as 48- to 64-page books, these fiction and nonfiction selections look similar to other teen novels and feature photographs to reflect a contemporary, age-appropriate tone. In addition, each book is supported by a lesson plan, guided reading questions, a reproducible comprehension activity, and a quiz. The books, combined with the instructional support, provide the perfect solution for today's teacher who has to differentiate instruction to meet the needs of all learners while teaching on-grade-level concepts.

**WOW REVIEW!** 🤩

"The TERL books have been a welcomed **answer to my needs** as a middle school special education teacher. I am thrilled with the TERL series and it has enabled me to be a more **culturally relevant** teacher by exciting my students' interest in reading. Instead of stories that don't connect with my students due to their low reading level, I can now explore **real-life, engaging topics that connect to my students' lives.**" — *Teacher, New Orleans*
