A New Level of Phonics-Based Texts for Teens

## What Is TERL Phonics All About?

*TERL Phonics* has been developed specifically for emerging teen readers who are developing their decoding skills. The series is also useful for newcomers with no prior English language skills. Written at emergent and beginning reader levels, the books have been carefully controlled to showcase phonics skills, beginning with CVC words and progressing through long vowels. Accompanied by dynamic full-color photos, the engaging storylines are teen-centric and represent a wide variety of genres.

Each level features eight 16-page books, six fiction and two nonfiction. Each book also includes a Word List, organized by phonics skills. Vocabulary-building words are highlighted in the text. A Teacher's Guide supports each book with a lesson plan, vocabulary-building activities, guided reading questions, reproducible activities focusing on phonics skills and comprehension, plus a quiz.

# Award-Winning Books

A New Level of Sight Words-Based Texts for Teens

## What Is TERL All About?

The *Teen Emergent Reader Libraries*® have been developed to solve the issue of motivating the most struggling teen readers to pick up a book and start reading. The first three libraries are written at the emergent and beginning reader levels. SOAR, the *Teen Early Fluency Library*™, is the newest addition to TERL. It introduces readers to longer fiction and bridges the gap between emergent reading and early fluency. The books offer mature, teen-centric storylines that entice teens to read. Formatted as 48- to 64-page books, these fiction and nonfiction selections look similar to other teen novels and feature photographs to reflect a contemporary, age-appropriate tone. In addition, each book is supported by a lesson plan, guided reading questions, a reproducible comprehension activity, and a quiz. The books, combined with the instructional support, provide the perfect solution for today's teacher who has to differentiate instruction to meet the needs of all learners while teaching on-grade-level concepts.

## Designed Specifically for:

- Middle School and High School Students Struggling to Read
