TITANIC

The Story of a Disaster

In April 1912 the largest ship the world had ever seen set sail on her first voyage.

She was sailing from England to America.

Some passengers were taking a luxury vacation.

Others were traveling to a new life in America.

The ship was named

TITANIC ...

...and she would never
reach America.

I am so cold.
So cold and scared.
I hear men shouting.
Women are crying.

I look over the railing
into the black water.
The ship is slowly sinking.

I don't want to die.
I don't want to die
in the icy black water.

I am so cold.
So cold and scared.
The ship is slowly sinking.
When will help come?

I need to find my brother.

Where are you, Edward?
Please come and take care of me.

Mother died when I was a child.
So Edward took care of me.

When Father beat me, Edward
wiped away my tears.

I was never scared if
Edward was there.

They took my clothes.
They shaved my head.
I was given a prisoner number.
I was no longer a human.

HOLOCAUST

The Story of a Survivor

In 1939, Germany was at war with Britain and many other countries. Germany's leader was Adolf Hitler. Hitler led a group called Nazis.

The Nazis hated Jewish people. They bullied Jews. They made their lives hell.

The Nazis sent Jewish people to concentration camps.

Six million Jews were killed in these camps.

This time is known as

THE HOLOCAUST.

Tonight there is a full moon.
I look up and think of Jacob.

I met Jacob in 1939.
He came to teach my
little brother, David.

I would take Jacob coffee.
He would smile at me.
I would smile back.

One evening we went for a walk.
There was a beautiful full moon.
We were so happy.

But life was changing in Poland.

At night my father's friends came.
I would take them coffee.
They talked about the war.
They talked about Hitler
and the Nazis.
They talked about camps
where Jews were slaves.

They said, "It's a bad time to be a Jew."
