

# THE WELL

Will and Jin take a walk.  
It is hot out.  
They find a **path**.  
Tall **trees** dim the sun.

The **path** goes up a hill.  
At the top is a hut.  
There is rot in the walls.

Jin does not want to go in.  
“That hut is old.  
It could have *ghosts.*”

Will knows there are no **ghosts**.  
But he does not tell Jin.  
"I like **ghosts**."

That makes Jin mad.  
“You are not funny.”  
He walks away.

CELLS

A man gets up.  
He goes for a run.

She was little.  
Now she is tall.

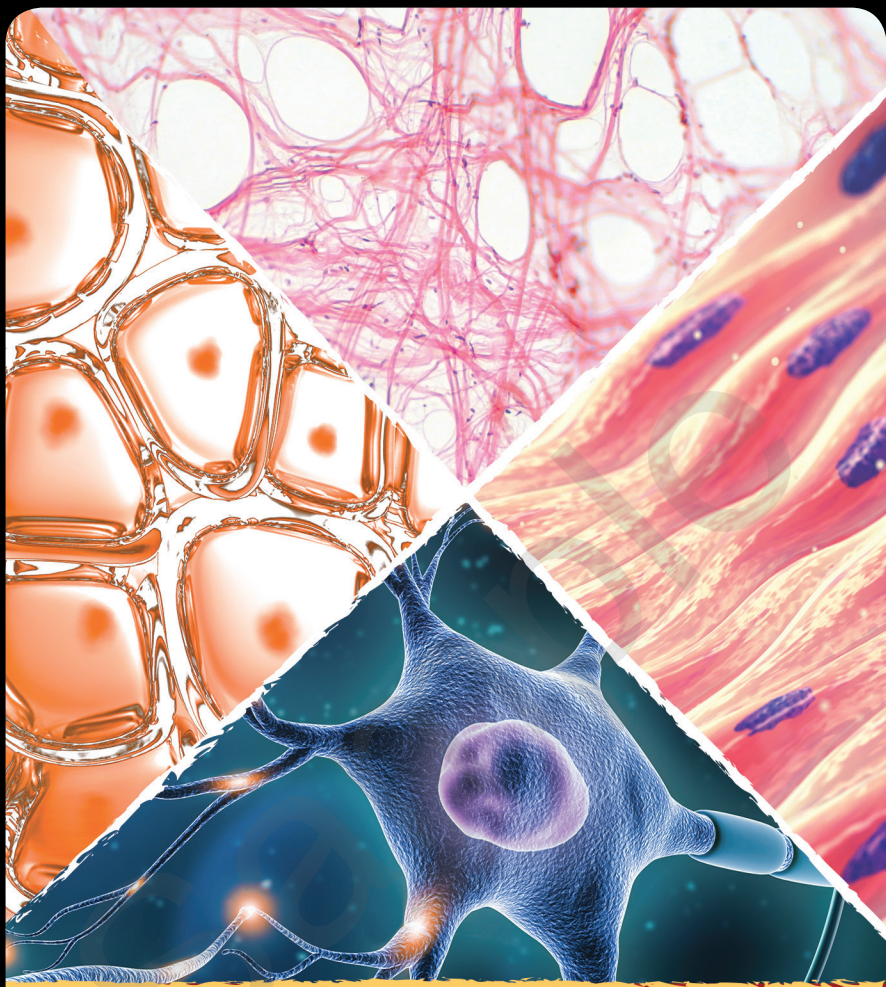

You come down with a bug.  
Then you get well.

How?

It is all thanks to cells.  
We are made of them.  
They are little.  
But they do a lot.

You have many cells.  
They all have jobs.
