Chapter 1
UFO?

It is a dark night.
Clouds cover the moon.
A car drives down a lonely road.
Its headlights shine.

A woman is at the wheel.
Her friend sits next to her.
They talk and laugh.
The radio plays music.
Then it stops.
There is only ***static***.

The woman looks at her friend.
She flips through stations.
None work.

Movement catches her eye.
She looks out the window.
Something is in the sky.
It is flying.
But it is not a plane.

The object is round.
It looks like a ***disc***.
Red lights blink.
What is it?

The woman slows down.
She pulls the car over.
Her friend sees it too.
Maybe it's a ship.
Could it be ***aliens***?

They get out a camera.
But then all is dark.
The flying object is gone.
It has disappeared.

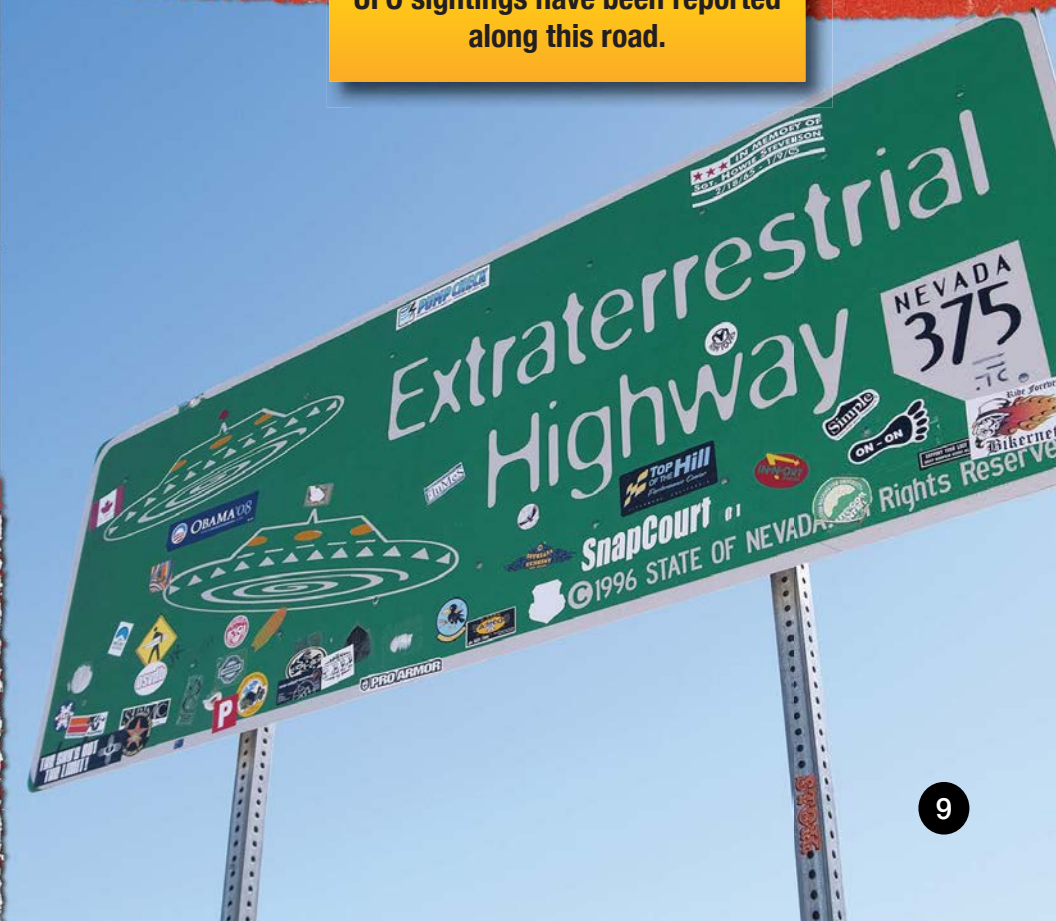

The story may sound like a movie.
But it is not.
This was a ***sighting***.
It's not the only one.

Many have seen ***UFOs***.
These are unidentified flying objects.
There have been sightings in Nevada.
Most are near one place.
It is called Area 51.

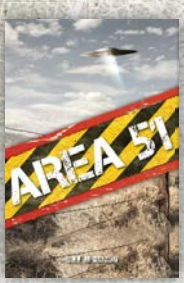

DID YOU KNOW?

Nevada Highway 375 is called the Extraterrestrial Highway. Many UFO sightings have been reported along this road.
