

Flashlight

The cost of light was steep.
It was hard to see at night.
The girl could not do homework.

Ann started to think.
She felt sad for her **friend**.
And she wanted to help.
Could she make free light?

DISCOVER [3]

MISSING

A hand in a white space suit glove points towards a large, reddish-orange planet, likely Mars, which is viewed through a circular window. The planet's surface is textured with craters and ridges. The word "MISSING" is overlaid in large, white, sans-serif capital letters across the center of the image. The background is dark, suggesting space, with some blue light reflecting off the window's rim.

They walked inside.
There was no cake and no crew.

Joyce gasped. "Where are they?"

"No clue," Troy said.
